

Chapter G leads the way.

I want to thank all of the chapter G members who took the time to take an Experienced Riders Course during 2004. Chapter G came up big with the most riders of any Wisconsin chapter to get ERC's. We had 22 riders do this new class this year.

Every one of our riders and co-riders who took this course found benefit to their riding. This course will again be offered again next year and there will be trike ERC's also offered. I again hope to get more G members to in this course next year. The new schedule should be announced early next year so that we can make plans to attend.

This course is well worth the one day it takes to do the course. It will make you a safer and a better skilled rider. It is also a bargain at \$35 with the proceeds going right back into the rider education program.

Russ Bethe
WI-G Educator.
